

FINANCIALLY FIT IN 2014

The first financial course is about to begin! Your responses to the September survey regarding the offering of a financial course were heard loud and clear! The Family Program Personal Financial Counselor, along with the Chaplains' Office and the Family Readiness Support Assistant and Family Assistant Specialist teams, are pleased to bring you the first **Financial Peace University Military Edition** course for the **Colorado National Guard Service Members!**

Floods, Fires, Furloughs...Need we say more?

It is time to get every Soldier and Airmen prepared to financially face the unexpected life events brought to you by Mother Nature and your service to the government. Do we need to say more?

Okay, deployments, state active duty pay and drill cancelation!

What more incentive do you need? Bring some peace to your life and sign up today to get yourself and your family 'Financially Fit in 2014'!

The Details:

Register

Now!

As this is a test course, space is limited. Of those that register, 35 Service Members, along with their individual guest, will be randomly selected to attend.

What is covered in the course?

For the first financial course offering of the year, we are utilizing the Financial Peace University Military Edition from the Dave Ramsey team. Please see the included flyer for more information. You can also click on the logo to the left to navigate to a video summary. If you are accessing this video on a government computer, please be patient while it loads.
