

LET YOUR VOICE BE HEARD!

Participate in the Wing Climate Survey

A message from Col Dunstan

This survey is designed to assess the perceptions of the 140th Wing members. Your perceptions are valuable because they give me insight into the climate of our Wing. Do not tell me what you think I want to hear, or say what others may say; tell it as you see it.

I appreciate your help and assure you the time you devote to the survey will not be wasted.

Myth vs. Reality

Myth: My commander will know exactly what I said.

Reality: Your unit is given 1 untraceable password. No PIA is collected and there is no way for anyone to determine how you responded.

Myth: I'm the only person of my race and rank in my shop. They will figure out how I answered.

Reality: The results will not display group data any time less than 5 members of that demographic complete the survey. Your responses will count in the overall totals, but not be broken down into small group data.

Myth: It's another waste of time, no one will look at data, and nothing ever changes.

Reality: This survey was requested by Col Dunstan and Wing leaders are excited to receive info about the Wing climate and plan to use it to guide their efforts.

How to Participate

1. Go to <https://www.deocs.net/user4/login/login.cfm> or follow the link in the Wing Command Climate Survey email
2. Enter your unit's survey access code from the email
3. Complete the survey no later than 4 Aug 14

If you have questions or difficulty accessing the survey, contact TSgt Brelje at the EO office at 847-6388 or ben.brelje@ang.af.mil
